

Website Requirements

Using either Weebly or Wix website builder, create a Photography website that will showcase your artistic works in this course. You must create a NEW site. Do not re-use your grade 10 Weebly.

Set your site up with the following four pages:

1. Home page

- Introduction to you
 - Paragraph to introduce yourself
 - Self Portrait
- Artist Statement

Here is an example of a photography artist statement:

I use photography as a means of self-expression – I make pictures for myself, to identify with hidden qualities of my character, to better understand my reality, and to express my interpretation of the world around me.

- At least 6 photos that you have taken to go with your statement

2. Photography Production

- Technical work
- Analysis & critiques

3. Photography Portfolio

- Strongest Photographs
- Creative Photoshop

4. Final Project

- More information in May

The overall aesthetic of your site will be assessed twice this semester, just before each report card.

Criteria	Value
Home page is complete and includes your artist statement & your own recent favorite photos	/4
Work is posted on appropriate page	/2
Clear Headings above each assignment/challenge	/1
Photos are all labeled as specified in assignments	/2
Light boxes are turned on, if necessary	/2
Fonts, colour and backgrounds are coordinated and consistent	/2
Arrangement of elements (text boxes, images, galleries, etc.) are balanced and positioned well	/2
	/15
